Architectural
Vision Systems

PIVOT LINE

Our vision is simple. Vision. Being able to see exactly what you want: your view, not your window or door. We specialise in installing frameless doors and windows in homes and commercial buildings around the world. We take glazing to a whole new level, by making a picture window have the facility to open removing the divide between the outside and inside. We are committed to product development of our systems to ensure we are always at the forefront of glazing technologies.

Our in-house CAD team can assist from planning to completion to ensure a smoothly run project. With multiple configurations available – your imagination is the limit. If we haven't done it, we will try and find a way to make your dreams possible.

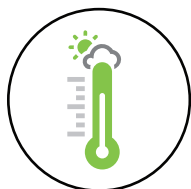

Multi-point locking system for enhanced security

Virtually unlimited range of finishes and RAL, anodised, syntha pulvin or bs colour choices

Manufactured in the heart of Kent at our sites in Canterbury and Ramsgate

Excellent wind, water and air resistance rating

Low u-values to improve your project's energy efficiency

Sustainably sourced and manufactured

U-VALUE

1.4W/m²K (USING A
1.1W/m²K GLASS UNIT)

AIR PERMABILITY

EN 12207:2000
CLASS 4

MAXIMUM DIMENSION

3000MM X 2000MM
(ENQUIRE IF YOU
WOULD LIKE
TO GO OUTSIDE THESE
SIZES)

FRAME DEPTH

44MM

APPLICATIONS

ALL GENERAL LIGHT
APPLICATIONS

FEATURES

PIVOT LINE DOORS
INCORPORATE FRAM-
LESS DESIGN WITH 35MM
SIGHTLINES ALLOWING
FOR AS MUCH DAYLIGHT
AS POSSIBLE. RECESSED
TRACKS ALLOW FOR
INTERRUPTED VIEWS
HIGHLY EFFICIENT DOU-
BLE-GLAZED UNITS WITH
THERMALLY BROKEN
ALUMINIUM ALLOW FOR
LOW U VALUES.

WIND RESISTANCE

EN 12210:2000
CLASS C5

WATER TIGHTNESS

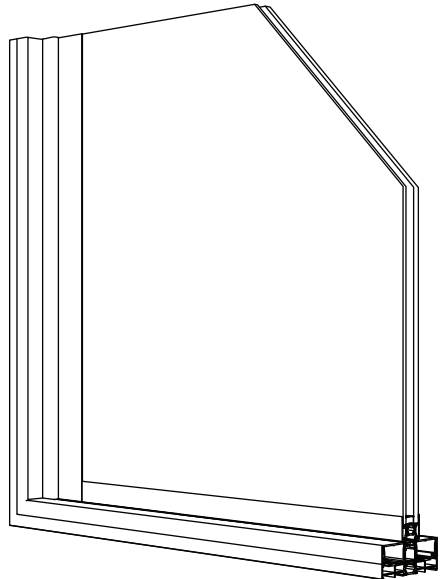

FLUSH THRESHOLD
REQUIRES A PROTECT-
ED OPENING NOT
ADVISABLE FOR
EXPOSED LOCATION

MAXIMUM WEIGHTS

300KG (ENQUIRE IF YOU
WOULD LIKE TO GO
OUTSIDE THIS WEIGHT)

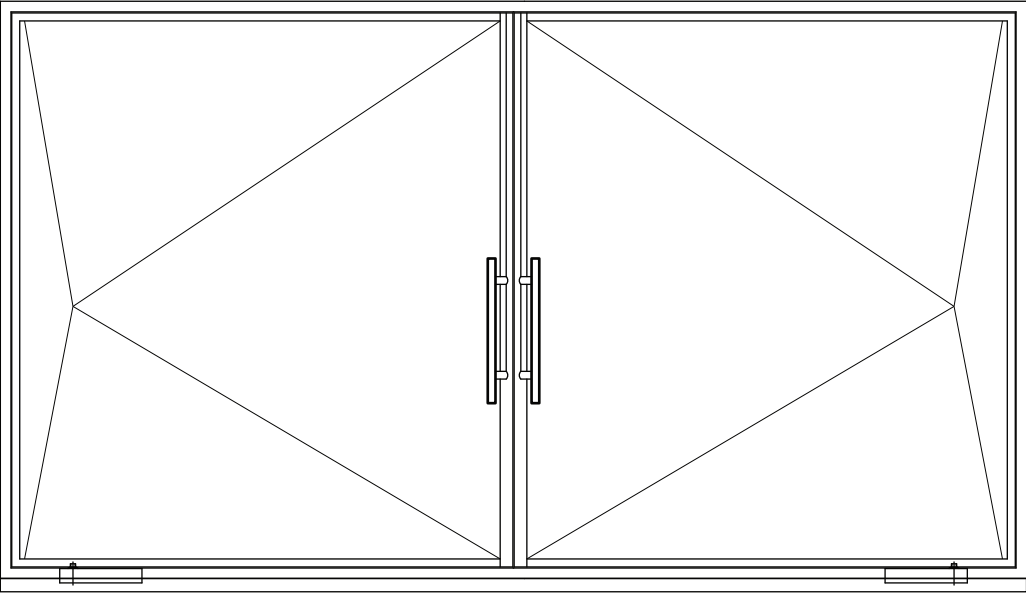

GLAZING THICKNESS

32MM DOUBLE GLAZED
UNITS

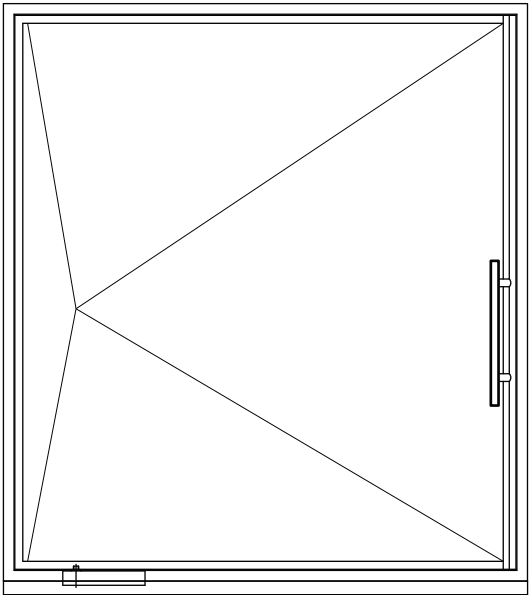

TECHNICAL SPECS

01 - PIVOT LINE DOUBLE

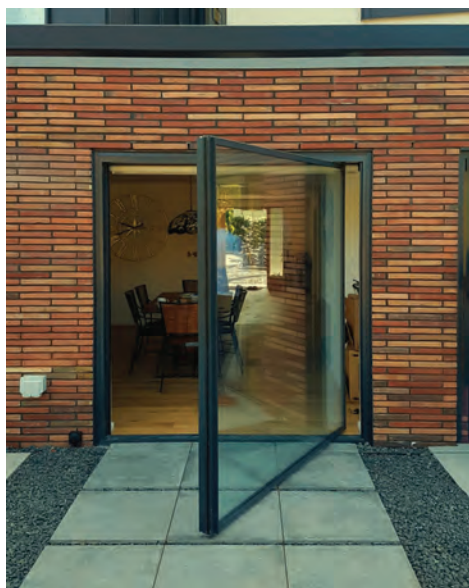

02 - PIVOT LINE SINGLE
